3. Resolution 1 – Approval of issue of Placement Shares

3.1 Background

Prior to the Meeting, the Company intends to seek binding commitments for a placement of up to 8,000,000 Shares in the Company at a price of \$0.25 per Share (**Placement Shares**) to investors under a Prospectus that the Company intends to lodge with the ASX and ASIC in February 2025.

Funds raised from the issue of the Placement Shares (less fees and expenses) are intended to be used for research and development activities and general working capital.

Resolution 1 is an ordinary resolution and seeks Shareholder approval for the purpose of Listing Rule 7.1 for the issue of the Placement Shares.

3.2 Listing Rule 7.1

Under Listing Rule 7.1, the Company is generally not permitted to issue more than 15% of its issued share capital in any 12-month period unless the issue is approved by the Company's shareholders or an exemption applies (**15% Capacity**).

The proposed issue of the Placement Shares does not fall within any of the exceptions to Listing Rule 7.1 and exceeds the Company's 15% Capacity. Accordingly, the Company is seeking approval from Shareholders for the issue of the Placement Shares under Resolution 1.

3.3 Effect of Shareholder approval

If Resolution 1 is passed, the Company will be entitled to issue the Placement Shares, and the Placement Shares will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rules 7.1.

If Resolution 1 is not passed, the Company will not be entitled to issue all the Placement Shares, and the Company will consider whether it is able to issue any Placement Shares within its available LR 7.1 15% placement capacity at that time.

All of the Directors unanimously recommend for the reasons given above, that Shareholders **vote in favour** of Resolution 1.

4. Resolutions 2 and 3 – Participation of Related Parties in Placement

4.1 General

Resolutions 2 and 3 seek shareholder approval for the participation of related parties in the Placement, which is the subject of Resolution 1.

Dr. Alex Sava has committed to subscribe for up to \$250,000 worth of shares, while Mr. Simon Lill has committed to subscribe for up to \$100,000 worth of shares (together, the **Related Party Participants**). These commitments are subject to shareholder approval under Chapter 2E of the Corporations Act, ASX Listing Rule 10.11 and for all other purposes, as the Related Party Participants are considered related parties of the Company under section 228 of the Corporations Act due to their positions as Directors.

The Board has determined that, in making allocations under the Placement, priority will be given to existing shareholders. Consequently, the actual amounts subscribed for by the Related Party Participants may be less than the maximum amounts committed or, potentially, zero. This approach ensures fairness and promotes equitable treatment of shareholders while balancing the Company's objective to raise capital effectively.

4.2 Chapter 2E of the Corporations Act

Chapter 2E of the Corporations Act requires that for a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (a) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (b) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The issue constitutes giving a financial benefit and each of the proposed recipients are related parties of the Company by virtue of being Directors.

As Securities are proposed to be issued to all of the Directors other than Mr Carl Le Souef, the Directors are unable to form a quorum to consider whether one of the exceptions set out in sections 210 to 216 of the Corporations Act applies to the issue. Accordingly, Shareholder approval for the issue is sought in accordance with Chapter 2E of the Corporations Act.

4.3 Listing Rule 10.11

ASX Listing Rule 10.11 also requires shareholder approval to be obtained where an entity issues, or agrees to issue, securities to a related party, or a person whose relationship with the entity or a related party is, in ASX's opinion, such that approval should be obtained unless an exception in ASX Listing Rule 10.12 applies.

Listing Rule 10.11 provides that unless one of the exceptions in Listing Rule 10.12 applies, a listed company must not issue or agree to issue equity securities to:

- 10.11.1 a related party
- 10.11.2 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (30%+ holder) in the company;
- 10.11.3 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (10%+) holder in the company and who has

nominated a director to the board of the company pursuant to a relevant agreement which gives them a right or expectation to do so;

10.11.4 an associate of a person referred to in Listing Rules 10.11.1 to 10.11.3; or

10.11.5 a person whose relationship with the company or a person referred to in Listing Rules 10.11.1 to 10.11.4 is such that, in the ASX's opinion, the issue or agreement should be approved by its shareholders,

unless it obtains the approval of its shareholders.

The issue of Shares to the Related Party Participants falls within Listing Rule 10.11.1 and does not fall within any of the exceptions in Listing Rule 10.12. It therefore requires the approval of Shareholders under Listing Rule 10.11.

4.4 Effect of Shareholder approval

If any or all of Resolutions 2 and 3 are passed, the Company will be able to proceed with the issue of the Shares to the Related Party Participants in respect of whom the relevant Resolution(s) is passed within one month after the date of the Meeting (or such later date as permitted by any ASX waiver or modification of the Listing Rules) and the Related Party Participants will be able to participate in the Placement. As it is an exception from Listing Rule 7.1 pursuant to Listing Rule 7.2 Exception 14 if approval for an issue of equity securities is obtained under Listing Rule 10.11, the issue of the Shares will not use up any of the Company's Placement Capacity under that rule.

If any or all of Resolutions 2 and 3 are not passed, the Related Party Participant(s) in respect of whom the Resolution(s) is not passed will not be able to participate in the Placement.

4.5 Prescribed information pursuant to Listing Rule 10.11 and section 219 of the Corporations Act

Other information	The Board is not aware of any other information that is reasonably required by Shareholders to allow them to decide whether it is in the best interests of the Company to pass these Resolutions.

4.6 Directors' Recommendation

As two of the three Directors have committed to participate in the Placement, subject to receiving Shareholder approval, and each has a material personal interest in the Resolutions to approve the issue of Shares to themselves, a quorum cannot be formed to consider a recommendation as to whether Shareholders should vote in favour of Resolutions 2 and 3. For this reason, the Directors do not believe that it is appropriate to make a recommendation on these Resolutions.

5. Resolution 4 – Approval to issue Shares in lieu of fees to former Executive Director – Mr. Jonathan Evans or his nominee

5.1 Background

Mr. Jonathan Evans, a former Executive Director, resigned from the Company on 10 July 2023. Mr. Evans' is no longer considered a Related Party under ASX LR 10.11.1 or the Corporations Act as the time elapsed between his resignation and the date of this Notice of Meeting and Explanatory Statement is greater than 6 months.

On 10 July 2023, the Company announced that it had agreed to issue Mr. Evans 150,000 Shares in the Company in lieu of any outstanding fees owing to Mr. Evans.

5.2 Listing Rule 7.1

Under Listing Rule 7.1, the Company is generally not permitted to issue more than 15% of its issued share capital in any 12-month period unless the issue is approved by the Company's Shareholders, or an exemption applies (**15% Capacity**).

The proposed issue of the Shares to Mr. Evans does not fall within any of the exceptions to Listing Rule 7.1.

The Company wishes to retain as much flexibility as possible to issue additional Equity Securities in the future without having to obtain Shareholder approval for such issues under Listing Rule 7.1. Equity Securities issued with Shareholder approval under Listing Rule 7.1 will not count towards the Company's 15% Capacity.

Accordingly, the Company is seeking Shareholder approval under Resolution 4 to issue the Shares to Mr. Evans in accordance with Listing Rule 7.1 so that the Shares issued do not reduce the Company's available capacity under Listing Rule 7.1.

5.3 Effect of Shareholder approval

If Resolution 4 is passed, the issue of the Shares to Mr. Evans will be excluded in calculating the Company's utilisation of its 15% Capacity under Listing Rule 7.1, which will provide the Company flexibility to issue Equity Securities in the future without obtaining Shareholder approval, if required.

If Resolution 4 is not passed, the Shares issued to Mr. Evans will be included in calculating the Company's utilisation of its 15% Capacity under Listing Rule 7.1, which will impact the Company's flexibility for future capital raisings.

5.4 Technical information required by ASX Listing Rule 7.3

Pursuant to and in accordance with Listing Rule 7.3, the following information is provided in relation to Resolution 4:

Name of the persons receiving the securities 7.3.1	The Shares will be issued to former Executive Director, Mr. Jonathan Evans or his nominee.

Terra Australis Pty Ltd (**Terra Australis**) has provided \$35,750 worth of consulting services to the Company. The consulting services involved assisting the Company with expert technical advice for its research and development activities. On 19 June 2024, the Directors resolved to convert the \$35,750 owing to Terra Australis into Shares to conserve the Company's cash reserves. For the purposes of Listing Rule 10.11, the Company confirms that Terra Australis is not a Related Party. Terra Australis has agreed to accept 150,000 Shares in settlement of all amounts owed by the Company.

6.2 Listing Rule 7.1

Under Listing Rule 7.1, the Company is generally not permitted to issue more than 15% of its issued share capital in any 12-month period unless the issue is approved by the Company's Shareholders, or an exemption applies (**15% Capacity**).

The proposed issue of the Shares to Terra Australis does not fall within any of the exceptions to Listing Rule 7.1.

The Company wishes to retain as much flexibility as possible to issue additional Equity Securities in the future without having to obtain Shareholder approval for such issues under Listing Rule 7.1. Equity Securities issued with Shareholder approval under Listing Rule 7.1 will not count towards the Company's 15% Capacity.

Accordingly, the Company is seeking Shareholder approval under Resolution 5 to issue the Shares to Terra Australis in accordance with Listing Rule 7.1 so that the Shares issued do not reduce the Company's available capacity under Listing Rule 7.1.

6.3 Effect of Shareholder approval

If Resolution 5 is passed, the issue of the Shares to Terra Australis will be excluded in calculating the Company's utilisation of its 15% Capacity under Listing Rule 7.1, which will provide the Company flexibility to issue Equity Securities in the future without obtaining Shareholder approval, if required.

7. Resolution 6 – Approval to issue Shares in lieu of cash for consulting fees to Famile Pty Ltd (or its nominee)

7.1 Background

Adam Gallagher was appointed as Company Secretary on 14 March 2024 to assist the Company in completing and lodging its outstanding disclosures, remaining compliant thereafter and working towards the reinstatement of its listed securities. Famile Pty Ltd ACN 129 639 151 (Famile) is the entity through which Mr Gallagher contracts his services. By the date of the Meeting, Famile may be owed up to \$100,000 in unpaid fees for which it has agreed to convert to shares at an issue price of \$0.25 per share. The Directors have resolved to convert up to \$100,000 of the amounts owing to Famile into up to 400,000 Shares to conserve the Company's cash reserves.

7.3 Effect of Shareholder approval

7.5 Directors' Recommendation

All of the Directors unanimously recommend for the reasons given above, that Shareholders **vote in favour** of Resolution 6.

8. Resolution 7 – Approval to issue Shares to a Substantial Holder – Dilato Holdings Pty Ltd (or its nominee)

8.1 Background

Dilato Holdings Pty Ltd ACN 109 588 785 (**Dilato**), has provided a finance facility to the Group for a total of \$3,000,000 (**Facility**). The total amount drawn as at the date of this Notice of Meeting and Explanatory Statement is \$1,422,934. Of this facility, \$1,577,066 remains undrawn. The facility is unsecured, has an interest rate of 10% per annum and a current maturity date of 31 December 2025.

Subject to shareholder approval, Dilato has agreed to accept up to 11,597,456 Shares (**Debt Conversion Shares**) at a price of \$0.25 in satisfaction of the current amounts owing and further amounts which may become owing under the Facility, up to an aggregate amount of \$2,899,364.

As at the date of this Notice, Dilato has a relevant interest in 57.22% of the Shares of the Company (based on 18,409,194 Shares held by Dilato. Dilato has also nominated Carl Le Souef as a Director of the Company, arising from the restructuring of PuriflOH (previously known as Water Resources Group Limited) during the 2014 financial year, which saw Dilato Holdings emerge as the major shareholder of PuriflOH. As Dilato is a 30%+ holder in the Company (**Substantial Holder**), and has nominated a Director to the Company, the proposed issue of Shares falls within both Listing Rules 10.11.2 and 10.11.13.

Resolution 7 seeks Shareholder approval under Listing Rule 10.11 for the issue of up to 11,597,456 Shares to Dilato, a Substantial Holder, to settle the amounts drawn from the Facility.

For the avoidance of doubt, Resolution 7 concerns the amounts owed under the Facility and does not impact the future availability of the Facility. The impact of Resolution 7 is to reduce the amounts owed by the Company to Dilato under the Facility. The Company will continue to have access to the Facility. The current limit of the Facility is \$3m, and the expiry date is 31 December 2025. Dilato has previously extended the expiry date of the Facility and has indicated that it will continue to do so for as long as the Directors wish it to remain in place.

Resolution 7 is conditional on Shareholders approving Resolution 1 and any of Resolution 4,5,6,8 or 9 being passed at this Meeting. If either:

- Resolution 1 is not approved by Shareholders; or
- Resolution 1 is approved by Shareholders and none of Resolution 4,5,6,8 or 9 are approved by Shareholders,

Resolution 7 will fail and the issue of the Debt Conversion Shares to Dilato will not occur.

8.2 Listing Rule 10.11

Under Listing Rule 10.11 unless an exception in Listing Rule 10.12 applies, the Company must obtain Shareholder approval to issue or agree to issue equity securities to a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (10%+) holder in the Company (10.11.2) and who has nominated a director to the board of the Company pursuant to a relevant agreement which gives them a right or expectation to do so (10.11.3).

It is the view of the Company that the issue falls within Listing Rule 10.11.2 and 10.11.3 and the exceptions set out in Listing Rule 10.12 do not apply to the current circumstances. Accordingly, Shareholder approval is sought for the issue of Shares pursuant to Listing Rule 10.11.

Subject to the approval of Resolution 1 and any of Resolution 4,5,6,8 or 9, If Resolution 7 is approved, the Company will be able to proceed with the issue to Dilato of up to 11,597,456 shares on the terms set out below.

If Resolution 7 is not approved by Shareholders, the Company will not be able to issue Shares to Dilato for settlement of amounts drawn from the Facility. The Company will need to draw on its cash reserves for repayment, which may include raising additional funds from investors through the issue of new Shares.

Resolution 7 is conditional on Shareholders approving Resolution 1 and any of Resolution 4,5,6,8 or 9 being passed at this Meeting. Therefore, if either Resolution 1 is not approved by Shareholders, or Resolution 1 is approved by Shareholders and none of Resolution 4,5,6,8 or 9 are approved by Shareholders, the Company will not be able to proceed with the issue of the Debt Conversion Shares to Dilato.

8.3 Sections 606 and 611 of the Corporations Act

Pursuant to section 606(1) of the Corporations Act, a person must not acquire a “relevant interest” in issued voting shares in a listed company if the person acquiring the interest does so through a transaction in relation to securities entered into by or on behalf of the person and because of the transaction, that person’s or someone else’s voting power in the company increases:

- (a) from 20% or below to more than 20%; or
- (b) from a starting point above 20% and below 90%.

The voting power of a person in a body corporate is determined in accordance with Section 610 of the Corporations Act. The calculation of a person’s voting power in a company involves determining the voting shares in the company in which the person and the person’s associates have a relevant interest.

Section 611 of the Corporations Act provides that certain acquisitions of relevant interests in a company’s voting shares are exempt from the prohibition in Section 606(1), including acquisitions by a person, which as a result of the acquisition, that person would have voting power in the company more than 3 percentage points (3%) higher than they had 6 months before the acquisition (this exemption is known as the “3% creep” exemption and is found in of item 9 of section 611 of the Corporations Act).

The Company notes that:

- (a) Dilato’s voting power in the Company has been 57.22% (ie, in excess of 20%) since 28 October 2022;
- (b) Resolution 7 is conditional on Resolutions 1 and any of Resolution 4,5,6,8 or 9 being passed;
- (c) Dilato’s voting power in the Company is expected to increase to a maximum of 57.79% on issue of the maximum number of Shares the subject of Resolution 7 (i.e the increase will be less than 3%), assuming the Shares the subject of Resolution 1 and any of Resolution 4,5,6,8 or 9 are issued prior or simultaneously with the issue of the Debt Conversion Shares;
- (d) Dilato’s voting power in the Company is expected to decrease to 54.39% on issue of the maximum number of Shares the subject of Resolution 7, assuming all Shares the

subject of Resolutions 1, 4,5,6,8 and 9 are issued prior to or simultaneously with the issue of the Debt Conversion Shares; and

Accordingly, in the event only Resolution 1 and any of Resolution 4,5,6,8 or 9 are passed at this Meeting and the Shares the subject of these Resolutions are issued, the Debt Conversion Shares may be issued to Dilato in reliance on the 3% creep exemption, so that the prohibition under section 606(1) of the Corporations Act does not apply to the issue of the Debt Conversion Shares.

In the event that all Resolutions seeking approval for the issue of Shares (being Resolutions 1,4,5,6,8 and 9) are passed at this Meeting, and the Shares the subject of these Resolutions are issued, the Debt Conversion Shares may be issued to Dilato without breaching the prohibition under section 606(1) of the Corporations Act and without reliance on the 3% creep exemption.

8.4 Chapter 2E of the Corporations Act

A summary of Chapter 2E of the Corporations Act is set out in Section 4.2 above.

The issue constitutes giving a financial benefit and Dilato is a related party of the Company by virtue of being an entity controlled by Carl Le Souef, a Director.

The Directors (other than Carl Le Souef) who has a material personal interest in the Resolution) consider that Shareholder approval pursuant to Chapter 2E of the Corporations Act is not required in respect of the issue of the Debt Conversion Shares because the Debt Conversion Shares to be issued to Dilato will be done so on an arm's length basis on the same terms as the debt conversion Shares proposed to be issued to non-related parties under Resolutions 5 and 6, and therefore falls within the exception contained in section 210 of the Corporations Act.

8.5 Prescribed information pursuant to Listing Rule 10.11

8.6 Directors' Recommendation

Mr. Carl Le Souef is a Director of both the Company and Dilato. Given his role in Dilato, Mr. Carl Le Souef has chosen to abstain from making a recommendation regarding Resolution 7.

Each of the Directors, aside from Mr. Carl Le Souef who abstains, recommends for the reasons given above, that Shareholders vote **in favour** of this Ordinary Resolution 7.

9. Resolutions 8 and 9 – Approval of the issue of Shares to Directors

9.1 Background

The Company has agreed, subject to Shareholder approval, to issue Shares (**Remuneration Shares**) to Dr. Alex Sava and Mr. Simon Lill (or their nominee(s)) (**Relevant Persons**) as remuneration for their service as Directors of the Company, in lieu of cash, for the period from 1 July 2021 to 31 December 2024 in the case of Dr. Alex Sava and 1 July 2020 to 31 December 2024 in the case of Mr. Simon Lill (**Relevant Period**).

RECIPIENT	RESOLUTION	DIRECTOR'S FEE/SALARY		SHARES
		\$	ACCRUAL PERIOD (FY ending)	
TOTAL		\$673,750		2,695,000

The Remuneration Shares, if approved, will be issued in accordance with Rule 15.7 of the Constitution, which provides that Directors may elect to receive their fees in Shares rather than cash. The percentage mix of Shares and cash is at the election of the Director. The Board believes that this approach offers flexibility for the Directors and inter alia presents a mechanism to align the interests of the Directors with the interests of the Company's Shareholders, while also preserving the Company's cash reserves.

Accordingly, Shareholder approval is being sought under Resolutions 8 and 9 for the Company to issue Remuneration Shares to the Relevant Persons, who have elected to receive their fees, or part thereof, in Shares in payment of their remuneration. As approval is being sought under Listing Rule 10.11, approval will not be required under Listing Rule 7.1.

9.2 Listing Rule 10.11 and 7.1

Listing Rule 10.11 provides that, subject to certain exceptions set out in Listing Rule 10.12, a listed company must not issue, or agree to issue, equity securities to, inter alia, a related party, without shareholder approval.

As the Relevant Persons are Directors of the Company, the proposed issue of shares fall within Listing Rule 10.11.1. It is the view of the Company that the exceptions set out in Listing Rule 10.12 do not apply in the current circumstances. Accordingly, Shareholder approval is sought for the issue of Remuneration Shares pursuant to Listing Rule 10.11.

Further, as a separate shareholder approval under Listing Rule 7.1 is not required for issues of securities that have received shareholder approval under Listing Rule 10.11, the issue of Remuneration Shares to the Relevant Persons will not be included in the calculation of the Company's 15% placement capacity for the purposes of Listing Rule 7.1, provided that the issue is completed within one month of the date of the Meeting.

If Resolutions 8 and 9 are approved, the Company will be able to proceed with the issue of Remuneration Shares to the Relevant Persons (or their nominees) without impacting the Company's 15% Capacity Limit under Listing Rule 7.1.

Subject to Shareholder approval for Resolutions 8 and 9 being received, the Board has determined, and the Relevant Persons have agreed, that the Company will issue the Remuneration Shares in lieu of cash remuneration for the Relevant Period (being 1 July 2021 to 31 December 2024 in the case of Dr. Alex Sava and 1 July 2020 to 31 December 2024 in the case of Mr. Simon Lill) on the basis set out in Table B below.

However, Shareholders should note that the approval of Resolutions 8 and 9 is only a 'one time' approval. If the Company wishes to issue Shares in lieu of remuneration to Directors or other related parties in the future, it will need to seek Shareholder approval for any such future issues.

If Resolutions 8 and 9 are not approved by Shareholders, the Company will pay the Total Remuneration (or that portion of the Total Remuneration which has not been approved to be paid by the issue of Remuneration Shares) to the Relevant Persons in cash.

9.3 Chapter 2E of the Corporations Act

Chapter 2E of the Corporations Act requires that for a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (c) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (d) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The issue constitutes giving a financial benefit and each of the proposed recipients are related parties of the Company by virtue of being Directors.

As Shares are proposed to be issued to all of the Directors, the Directors are unable to form a quorum to consider whether one of the exceptions set out in sections 210 to 216 of the Corporations Act applies to the issue. Accordingly, Shareholder approval for the issue is sought in accordance with Chapter 2E of the Corporations Act.

9.4 Prescribed Information pursuant to Listing Rule 10.11 and section 219 of the Corporations Act

Trading history	The Company's Shares have been suspended from quotation on ASX since 15 February 2023, and therefore there is no trading history for Shares on ASX in the 12 months before the date of this Notice. 9.5 Remuneration payable to the Relevant Persons for the Relevant Period

The total remuneration payable to the Relevant Person for the performance of director services for the Relevant Period (**Total Remuneration Fees**) is set out in the table below:

Table A*:

Relevant Person	Total Remuneration Fees
Dr. Alex Sava	\$373,750
Mr. Simon Lill	\$300,000

**All amounts are shown in AUD.*

9.6 The number of Remuneration Shares to be issued

The Company proposes to issue the Remuneration Shares at a deemed issue price of \$0.25.

The total number of Remuneration Shares to be issued pursuant to Resolutions 8 and 9 is 2,695,000 (**Total Remuneration Shares**). This figure is calculated by dividing the Total Remuneration Fees owing to the Relevant Persons by the Issue Price (being \$0.25) as set out below:

Table B:

Relevant Person	Total Remuneration Fees (AUD)	Percentage that the Director has elected to be paid in Shares	Sum of Remuneration fees to be paid in Shares	Number of Shares to be issued based on deemed issue price of \$0.25
Dr. Alex Sava	\$373,750	100%	\$373,750	1,495,000
Mr. Simon Lill	\$300,000	100%	\$300,000	1,200,000

9.7 Directors' Recommendation

As two of the three Directors may be issued Shares in lieu of fees under these Resolutions, subject to receiving Shareholder approval, and each has a material personal interest in the Resolutions to approve the issue of Shares to themselves, a quorum cannot be formed to consider a recommendation as to whether Shareholders should vote in favour of these Resolutions. For this reason, the Directors do not believe that it is appropriate to make a recommendation on these Resolutions.

10. Resolution 10 – Approval to issue Securities under an Incentive Plan

10.1 General

This Resolution seeks Shareholder approval for purposes of Listing Rule 7.2 (Exception 13(b)) for the issue of a maximum of 12,000,000 Securities under the employee incentive scheme titled "Employee Incentive Securities Plan" (**Plan**).

The objective of the Plan is to attract, motivate and retain key employees, contractors and other persons who provide services to the Company, and the Company considers that the adoption of the Plan and the future issue of Securities under the Plan will provide these parties with the opportunity to participate in the future growth of the Company.

A summary of Listing Rule 7.1 is set out in Section 3.2 above.

Listing Rule 7.2 (Exception 13(b)) provides that Listing Rule 7.1 does not apply to an issue of securities under an employee incentive scheme if, within three years before the date of issue of the securities, the holders of the entity's ordinary securities have approved the issue of equity securities under the scheme as exception to Listing Rule 7.1.

Exception 13(b) is only available if and to the extent that the number of equity securities issued under the scheme does not exceed the maximum number set out in the entity's notice of meeting dispatched to shareholders in respect of the meeting at which shareholder approval was obtained pursuant to Listing Rule 7.2 (Exception 13(b)). Exception 13(b) also ceases to be available if there is a material change to the terms of the scheme from those set out in the notice of meeting.

10.2 Technical Information required by Listing Rule 14.1A

If this Resolution is passed, the Company will be able to issue Securities under the Plan to eligible participants over a period of 3 years. The issue of any Securities to eligible participants under the Plan (up to the maximum number of Securities stated in Section 10.3 below) will be excluded from the calculation of the number of equity securities that the Company can issue without Shareholder approval under Listing Rule 7.1.

For the avoidance of doubt, the Company must seek Shareholder approval under Listing Rule 10.14 in respect of any future issues of Securities under the Plan to a related party or a person whose relationship with the Company or the related party is, in ASX's opinion, such that approval should be obtained.

If this Resolution is not passed, the Company will be able to proceed with the issue of Securities under the Plan to eligible participants, but any issues of Securities will reduce, to that extent, the Company's capacity to issue equity securities without Shareholder approval under Listing Rule 7.1 for the 12-month period following the issue of the Securities.

10.3 Technical information required by Listing Rule 7.2 (Exception 13)

REQUIRED INFORMATION	DETAILS
Terms of the Plan	A summary of the material terms and conditions of the Plan is set out in Schedule 1.
Number of Securities previously issued under the Plan	The Company has not issued any Securities under the Plan as this is the first time that Shareholder approval is being sought for the adoption of the Plan.
Maximum number of Securities proposed to be issued under the Plan	The maximum number of Securities proposed to be issued under the Plan in reliance on to Listing Rule 7.2 (Exception 13), following Shareholder approval, is 12,000,000 Securities. It is not envisaged that the maximum number of Securities for which approval is sought will be issued immediately. The Company may also seek Shareholder approval under Listing Rule 10.14 in respect of any future issues of Securities under the Plan to a related party or a person whose relationship with the Company or the related party is, in ASX's opinion, such that approval should be obtained.

11. Resolutions 11 to 13 (inclusive) – Approval to issue Options to Directors

11.1 Background

Resolutions 11 to 13 (inclusive) seeks Shareholder approval, pursuant to ASX Listing Rule 10.14 and Chapter 2E of the Corporations Act, for the issue of Options (**Director Options**) to each of the following related parties (together, the **Proposed Optionholders**) under the Company's proposed Incentive Plan to incentivise their performance and align their personal interests with the interests of the Company's Shareholders.

The issue of the Director Options is subject to the adoption of the proposed Incentive Plan under Resolution 10.

	3	1,000,000	\$0.50	31 January 2028	Continuously remaining in office to 31 December 2026
Alex Sava	1	500,000	\$0.25	31 January 2028	Continuously remaining in office to 31 December 2026
	2	500,000	\$0.30	31 January 2028	Continuously remaining in office to 31 December 2026
	3	2,000,000	\$0.50	31 January 2028	Continuously remaining in office to 31 December 2026

11.2 Chapter 2E of the Corporations Act

A summary of Chapter 2E of the Corporations Act is set out in Section 9.4 above.

The issue constitutes giving a financial benefit and each of the proposed recipients is a related party of the Company by virtue of being a Director.

As Securities are proposed to be issued to all of the Directors, the Directors are unable to form a quorum to consider whether one of the exceptions set out in sections 210 to 216 of the

Corporations Act applies to the issue. Accordingly, Shareholder approval for the issue is sought in accordance with Chapter 2E of the Corporations Act.

11.3 Listing Rule 10.14

Listing Rule 10.14 provides that a listed company must not permit a director (or certain other persons) to acquire Equity Securities under an employee incentive scheme unless it obtains the approval of its shareholders. Since the Proposed Optionholders are Directors of the Company, the issue of the Director Options falls within Listing Rule 10.14.1 and therefore requires the approval of the Company's Shareholders under Listing Rule 10.14.

Listing Rule 10.11 also provides that the Company must not issue Equity Securities to a Related Party or an associate of a Related Party without shareholder approval. However, Listing Rule 10.12 (Exception 8) provides that approval under Listing Rule 10.11 is not required for an issue of Equity Securities under an employee incentive scheme made, or taken to have been made, with the approval of the issuing entity's shareholders under Listing Rule 10.14.

Further, Listing Rule 7.2 (Exception 14) provides that where an issue of securities is approved by shareholders for the purposes of Listing Rule 10.11 or Listing Rule 10.14, then it will be excluded from the calculation of the Company's placement capacity under Listing Rule 7.1 (discussed above in item 6.5).

Accordingly, since Resolutions 11 to 13 (inclusive) are seeking Shareholder approval pursuant to Listing Rule 10.14, the Board is not seeking Shareholder approval for the issue of the Director Options under Listing Rule 10.11 (pursuant to Exception 8 in Listing Rule 10.12) or under Listing Rule 7.1 (pursuant to Exception 14 under Listing Rule 7.2).

11.4 Technical information required by Listing Rule 14.1A

If these Resolutions are passed, the Company will be able to proceed with the issue within 15 months after the date of the Meeting. As approval pursuant to Listing Rule 7.1 is not required for the issue (because approval is being obtained under Listing Rule 10.14), the issue will not use up any of the Company's 15% annual placement capacity.

If these Resolution are not passed, the Company will not be able to proceed with the issue and would need to consider alternatives to the Proposed Optionholders remuneration to incentivise the Proposed Optionholders, which may involve cash arrangements.

11.5 Information required under Listing Rule 10.15

Pursuant to and in accordance with the requirements of Listing Rule 10.15, the following information is provided in relation to the proposed issue of Related Party Options:

Consideration of type of security to be issued	<p>The Company has agreed to issue the Options for the following reasons:</p> <ul style="list-style-type: none"> (a) the issue of Options has no immediate dilutionary impact on Shareholders; (b) the issue to the Proposed Optionholders will align the interests of the recipient with those of Shareholders; (c) the issue is a reasonable and appropriate method to provide cost effective remuneration as the non-cash form of this benefit will allow the Company to spend a greater proportion of its cash reserves on its operations than it would if alternative cash forms of remuneration were given to the Proposed Optionholders; (d) the deferred taxation benefit which is available to the recipient in respect of an issue of Options is also beneficial to the Company as it means the recipient is not required to immediately sell the Options to fund a tax liability (as would be the case in an issue of Shares where the tax liability arises upon issue of the Shares) and will instead, continue to hold an interest in the Company; and (e) it is not considered that there are any significant opportunity costs to the Company or benefits foregone by the Company in issuing the Options on the terms proposed.
Consideration of quantum of Securities to be issued	<p>The number of Securities to be issued has been determined based upon a consideration of:</p> <ul style="list-style-type: none"> (a) current market standards and/or practices of other ASX listed companies of a similar size and stage of development to the Company; (b) the remuneration of the proposed recipients; and (c) incentives to attract and ensure continuity of service of the proposed recipients who have appropriate knowledge and expertise, while maintaining the Company's cash reserves. <p>The Company does not consider that there are any significant opportunity costs to the Company or benefits foregone by the Company in issuing the Options upon the terms proposed.</p>
Date of issue 10.15.7	<p>If the issue of the Director Options is approved, the Company will issue the Director Options within 1 month of this Meeting (or such later date as permitted by ASX). 11.6 Directors' Recommendation

Each Director has a material personal interest in the outcome of these Resolutions on the basis that all of the Directors (or their nominee(s)) are to be issued Securities should these Resolutions be passed. For this reason, the Directors do not believe that it is appropriate to make a recommendation on these Resolutions.

12. Resolution 14 – Amendment to Constitution

12.1 General

A company may modify or repeal its constitution or a provision of its constitution by special resolution of shareholders.

This Resolution is a special resolution which will enable the Company to amend its existing Constitution (**Amended Constitution**) as set out in the table below.

A copy of the Amended Constitution can be sent to Shareholders upon request to the Company Secretary on adam.gallagher@purifloh.com. Shareholders are invited to contact the Company if they have any queries or concerns.

12.2 Summary of material proposed changes

Employee incentive securities plan (Clause 2.4)	Under the new Division 1A of Part 7.12 of the Corporations Act, which came into effect on 1 October 2022, offers under an employee incentive plan that do not require a monetary payment (e.g., zero exercise price options or performance rights) can be issued without an issue cap. However, offers requiring a monetary payment (whether upon grant or upon exercise/vesting of the awards and issue of the underlying shares) must be accompanied by an 'ESS offer document' and must comply with an issue cap. The cap is set at 5% under the Corporations Act unless raised by a company's constitution. A company may include a higher issue cap in its constitution to allow for more than 5% of securities to be issued under the plan. The Amended Constitution has set the issue cap at 20%.

Insertion of partial (proportional) takeover provisions

A proportional takeover bid is a takeover bid where the offer made to each shareholder is only for a proportion of that shareholder's shares.

Pursuant to section 648G of the Corporations Act, an entity may include a provision in its constitution whereby a proportional takeover bid for shares may only proceed after the bid has been approved by a meeting of shareholders held in accordance with the terms set out in the Corporations Act.

In accordance with section 648G(1) of the Corporations Act, such clause will cease to apply at the end of three years from the incorporation of the Company, insertion of the clause or renewal of the clause (as appropriate) unless otherwise specified. When this clause ceases to apply, the constitution will be modified by omitting the clause.

A company may renew its proportional takeover approval provisions in the same manner in which a company can modify its constitution (i.e., by special resolution of shareholders).

This Resolution will enable the Company to modify its Constitution by re-inserting proportional takeover provisions into the Amended Constitution in the form of clause 37.

Effect of proposed proportional takeover provisions

Where offers have been made under a proportional off-market bid in respect of a class of securities in a company, the registration of a transfer giving effect to a contract resulting from the acceptance of an offer made under such a proportional off-market bid is prohibited unless and until a Resolution to approve the proportional off-market bid is passed.

Reasons for proportional takeover provisions

A proportional takeover bid may result in control of the Company changing without Shareholders having the opportunity to dispose of all their Shares. By making a partial bid, a bidder can obtain practical control of the Company by acquiring less than a majority interest. Shareholders are exposed to the risk of being left as a minority in the Company and the risk of the bidder being able to acquire control of the Company without payment of an adequate control premium. These amended provisions allow Shareholders to decide whether a proportional takeover bid is acceptable in principle, and assist in ensuring that any partial bid is appropriately priced.

Knowledge of any acquisition proposals

As at the date of this Notice, no Director is aware of any proposal by any person to acquire, or to increase the extent of, a substantial interest in the Company.

Potential advantages and disadvantages of proportional takeover provisions

The Directors consider that the proportional takeover provisions have no potential advantages or disadvantages for them and that they remain free to make a recommendation on whether an offer under a proportional takeover bid should be accepted.

The potential advantages of the proportional takeover provisions for Shareholders include:

- (a) the right to decide by majority vote whether an offer under a proportional takeover bid should proceed;
- (b) assisting in preventing Shareholders from being locked in as a minority;

(c) increasing the bargaining power of Shareholders which may assist in ensuring that any proportional takeover bid is adequately priced; and

(d) each individual Shareholder may better assess the likely outcome of the proportional takeover bid by knowing the view of the majority of Shareholders which may assist in deciding whether to accept or reject an offer under the takeover bid.

The potential disadvantages of the proportional takeover provisions for Shareholders include:

(a) proportional takeover bids may be discouraged;

(b) lost opportunity to sell a portion of their Shares at a premium; and

(c) the likelihood of a proportional takeover bid succeeding may be reduced.

Recommendation of the Board

The Directors do not believe the potential disadvantages outweigh the potential advantages of adopting the proportional takeover provisions and as a result consider that the proportional takeover provision in the Amended Constitution is in the interest of Shareholders and unanimously recommend that Shareholders vote in favour of this Resolution.

Eligible Participant	Eligible Participant means a person that is a 'primary participant' (as that term is defined in Division 1A of Part 7.12 of the Corporations Act) in relation to the Company or an Associated Body Corporate (as defined in the Corporations Act) and has been determined by the Board to be eligible to participate in the Plan from time to time.
Purpose	The purpose of the Plan is to: <ul style="list-style-type: none"> (a) assist in the reward, retention and motivation of Eligible Participants; (b) link the reward of Eligible Participants to Shareholder value creation; and (c) align the interests of Eligible Participants with shareholders of the Group (being the Company and each of its Associated Bodies Corporate), by providing an opportunity to Eligible Participants to receive an equity interest in the Company in the form of a security in the capital of the Company, including Share, Option, Performance Right or other Convertible Security (Securities).
Maximum number of Convertible Securities	The Company will not make an invitation under the Plan which involves monetary consideration if the number of Shares that may be issued, or acquired upon exercise of Convertible Securities offered under an invitation, when aggregated with the number of Shares issued or that may be issued as a result of all invitations under the Plan during the 3 year period ending on the day of the invitation, will exceed 5% of the total number of issued Shares at the date of the invitation (unless the Constitution specifies a different percentage and subject to any limits approved by Shareholders under Listing Rule 7.2 Exception 13(b) – refer to Resolution 14 and Section 12.2). The Constitution specifies a threshold of 20% of the issue cap.
Plan administration	The Plan will be administered by the Board. The Board may exercise any power or discretion conferred on it by the Plan rules in its sole and absolute discretion (except to the extent that it prevents the Participant relying on the deferred tax concessions under Subdivision 83A-C of the <i>Income Tax Assessment Act 1997</i> (Cth)). The Board may delegate its powers and discretion.
Eligibility, invitation and application	The Board may from time to time determine that an Eligible Participant may participate in the Plan and make an invitation to that Eligible Participant to apply for any (or any combination of) the Securities provided under the Plan on such terms and conditions as the Board decides. On receipt of an invitation, an Eligible Participant may apply for the Securities the subject of the invitation by sending a completed application form to the Company. If an Eligible Participant is permitted in the invitation, the Eligible Participant may, by notice in writing to the Board, nominate a party in whose favour the Eligible Participant wishes to renounce the invitation.

Rights attaching to Convertible Securities	A Convertible Security represents a right to acquire one or more Plan Shares in accordance with the Plan (for example, an Option or a Performance Right). For the avoidance of doubt, if the vesting conditions relevant to a Convertible Security are not satisfied and/or otherwise waived by the Board, that security will lapse.</p>
Forfeiture of Convertible Securities	<p>Convertible Securities will be forfeited in the following circumstances:</p> <p>(a) in the case of unvested Convertible only, where a Participant acts fraudulently, dishonestly, negligently, in contravention of any Group policy or wilfully breaches their duties to the Group;</p> <p>(b) where there is a failure to satisfy the vesting conditions in accordance with the Plan;</p> <p>(c) on the date the Participant becomes insolvent; or</p> <p>(d) on the Expiry Date,</p> <p>subject to the discretion of the Board.</p>

Timing of issue of Shares and quotation of Shares on exercise	<p>Within five business days after the issue of a valid notice of exercise by a Participant, the Company will issue or cause to be transferred to that Participant the number of Shares to which the Participant is entitled under the Plan rules and issue a substitute certificate for any remaining unexercised Convertible Securities held by that Participant.</p>

<p>Restriction periods and restrictions on transfer of Shares on exercise</p>	<p>If the invitation provides that any Shares issued upon the valid exercise of a Convertible Security are subject to any restrictions as to the disposal or other dealing by a Participant for a period, the Board may implement any procedure it deems appropriate to ensure the compliance by the Participant with this restriction.</p> <p>Additionally, Shares issued on exercise of the Convertible Securities are subject to the following restrictions:</p> <p>(a) if the Company is required but is unable to give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, Shares issued on exercise of the Convertible Securities may not be traded until 12 months after their issue unless the Company, at its sole discretion, elects to issue a prospectus pursuant to section 708A(11) of the Corporations Act;</p> <p>(b) all Shares issued on exercise of the Convertible Securities are subject to restrictions imposed by applicable law on dealing in Shares by persons who possess material information likely to affect the value of the Shares and which is not generally available; and</p> <p>(c) all Shares issued on exercise of the Convertible Securities are subject to the terms of the Company's Securities Trading Policy.</p>
<p>Rights attaching to Shares on exercise</p>	<p>All Shares issued upon exercise of Convertible Securities will rank equally in all respects with the then Shares of the Company.</p>

The Board's discretion in determining the treatment of any unvested Convertible Securities on a change of control event is limited to vesting or varying any vesting conditions in respect to the Convertible Securities and does not include a discretion to lapse or forfeit unvested Convertible Securities for less than fair value.</p>
<p>Participation in entitlements and bonus issues</p>	<p>Subject always to the rights under the following two paragraphs, Participants will not be entitled to participate in new issues of capital offered to holders of Shares such as bonus issues and entitlement issues.</p>
<p>Adjustment for bonus issue</p>	<p>If Shares are issued by the Company by way of bonus issue (other than an issue in lieu of dividends or by way of dividend reinvestment), the Participant is entitled, upon exercise of the Convertible Securities, to receive an issue of as many additional Shares as would have been issued to the holder if the holder held Shares equal in number to the Shares in respect of which the Convertible Securities are exercised.</p>
<p>Reorganisation</p>	<p>If there is a reorganisation of the issued share capital of the Company (including any subdivision, consolidation, reduction, return or cancellation of such issued capital of the Company), the rights of each Participant holding Convertible Securities will be changed to the extent necessary to comply with the ASX Listing Rules applicable to a reorganisation of capital at the time of the reorganisation.</p>
<p>Employee Share Trust</p>	<p>The Board may in its sole and absolute discretion use an employee share trust or other mechanism for the purposes of holding Convertible Securities for holders under the Plan and delivering Shares on behalf of holders upon exercise of Convertible Securities.</p>
<p>Amendment of Plan</p>	<p>Subject to the following paragraph, the Board may at any time amend any provisions of the Plan rules, including (without limitation) the terms and conditions upon which any Securities have been granted under the Plan and determine that any amendments to the Plan rules be given retrospective effect, immediate effect or future effect.</p> <p>No amendment to any provision of the Plan rules may be made if the amendment materially reduces the rights of any Participant as they existed before the date of the amendment, other than an amendment introduced primarily for the purpose of complying with legislation or to correct manifest error or mistake, amongst other things, or is agreed to in writing by all Participants.</p>

<p>Plan duration</p>	<p>The Plan continues in operation until the Board decides to end it. The Board may from time to time suspend the operation of the Plan for a fixed period or indefinitely and may end any suspension. If the Plan is terminated or suspended for any reason, that termination or suspension must not prejudice the accrued rights of the Participants.</p> <p>If a Participant and the Company (acting by the Board) agree in writing that some or all of the Securities granted to that Participant are to be cancelled on a specified date or on the occurrence of a particular event, then those Securities may be cancelled in the manner agreed between the Company and the Participant.</p>
<p>Income Tax Assessment Act</p>	<p>The Plan is a plan to which Subdivision 83A-C of the <i>Income Tax Assessment Act 1997</i> (Cth) applies (subject to the conditions in that Act) except to the extent an invitation provides otherwise.</p>
<p>Withholding</p>	<p>Subject to applicable law, if the Company reasonably believes that it may have an obligation to account for any tax, or any superannuation amounts (or equivalent social security contributions, if applicable) in respect of a holder of Options, it is entitled to withhold that amount.</p>

RE: Valuation of PuriflOH Limited stock options

Dear Adam,

1. Introduction

You have requested that we determine the fair market value of three tranches of stock options (the **Options**) in accordance with AASB 2 – Share Based Payment (the **Engagement**). The Options are proposed to be granted by PuriflOH Limited (the **Company**) to directors of the Company following shareholder approval at the Company’s next General Meeting. As a result, we undertook the valuation as at 12 December 2024 (**Valuation Date**), being the most recently concluded market day prior to the date of this report.

2. Summary of the Options

The tranches comprising the Options are summarised below and further detailed in Annexure 1.

Tranche	Recipient(s)	Summary of terms / vesting conditions
Tranche 1	Directors	Exercise Price = \$0.250; Expiry Date of 31 January 2028; Remaining in office until Vesting Date of 31 December 2026
Tranche 2	Directors	Exercise Price = \$0.300; Expiry Date of 31 January 2028; Remaining in office until Vesting Date of 31 December 2026
Tranche 3	Directors	Exercise Price = \$0.500; Expiry Date of 31 January 2028; Remaining in office until Vesting Date of 31 December 2026

3. Valuation Methodologies

We have used the Black-Scholes Option Pricing (**BSOP**) methodology, which utilises the Black-Scholes-Merton model, to estimate the fair value of the Options. Our valuation of the Options takes into consideration:

- (1) The material terms of the Options Annexure 1
- (2) Methodology and key inputs of the BSOP Annexure 2
- (3) Other considerations Annexure 3
- (4) Key relevant accounting standards Annexure 4

4. Valuation Conclusion

Based on the inputs and assumptions discussed in this letter (including annexures), the resulting fair value for the Options is summarised in Table 1 below.

Table 1: Valuation Conclusion

Tranche	# of equity instruments	Probability of achievement ¹	Value per Option	Concluded value
	(a)	(b)	(c)	(d) = (a)*(b)*(c)
Tranche 1	500,000	100.0%	\$0.1288	\$64,400
Tranche 2	1,500,000	100.0%	\$0.1171	\$175,650
Tranche 3	4,000,000	100.0%	\$0.0847	\$338,800
Total	6,000,000			\$578,850

Note 1: the Company must apply their estimated probability of achievement of each tranche's non-market-based vesting conditions and service condition to the number of equity instruments in each tranche (see Annexure 3 for further discussion).

Should you have any questions regarding anything contained in this letter please do not hesitate to contact me. Yours faithfully

Annexure 2

Methodology and Key Inputs of the BSOP

Annexure 2 – Methodology and Key Inputs of the BSOP

In determining the fair value of the Options we used the Black-Scholes Option Pricing (BSOP) methodology, which utilises the Black-Scholes-Merton model,

Table A2-1 below summarises the key inputs used in the BSOP methodology, and is followed by an explanation of each of the six key inputs and how they were determined.

Table A2-1: BSOP Inputs

Input	Values at Valuation Date		
	Tranche 1	Tranche 2	Tranche 3
i. Underlying share price	\$0.250	\$0.250	\$0.250
ii. Exercise price	\$0.250	\$0.300	\$0.500
iii. Term	3.02 yrs	3.02 yrs	3.02 yrs
iv. Risk-free rate	3.842%	3.842%	3.842%
v. Dividend yield	Nil	Nil	Nil
vi. Volatility (rounded)	75.0%	75.0%	75.0%

i. Underlying share price

As the Company has been suspended from trading on the ASX since February 2023, a readily available market price of the Company's shares was not available as at the Valuation Date. Consequently, we examined proposed transactions in the share capital of the Company, which are subject to shareholder approval at the same General Meeting that approval for the subject Options is being sought. Namely, approval is being sought for shares to be issued as a result of: (i) a share placement; (ii) in lieu of fees to a former and current directors; (iii) in lieu of consultant fees; and (iv) satisfaction of an outstanding debt obligation. All of the preceding issuances are proposed/being conducted at a price of \$0.25/share, which we note is not dissimilar from the last market traded price of \$0.22 back in February 2023. As a result, we have adopted \$0.25/share as accurately reflecting the market price of the Company's shares as at the Valuation Date.

ii. Exercise price

We have been provided with the exercise price of the Options as listed in Table A2-1 above.

iii. Term

Being the period from the Estimated Grant Date (24 January 2025 – Date of General Meeting) to the Expiry Date.

iv. Risk-free rate

The risk-free rate was determined to be the yield-to-maturity of an Australian government bond on the Valuation Date and with a term of equal duration to each tranche. The government bond interest rates were taken from data provider S&P Capital IQ for the government bonds quoted on the Australian Office of Financial Management website (<https://www.aofm.gov.au/securities/treasury-bonds>). As the term of the Options did not match the any term-to-maturity for the Australian government bonds as at the Valuation Date, linear interpolation was used to determine the risk-free rate.

v. Dividends

The dividend yield was assumed to be nil as no dividend has been recently paid by the Company and it was assumed that this trend would continue over the term of the Options.

vi. Volatility

As the shares of the Company were not publicly traded at the Valuation Date, having been suspended from quotation on the ASX in February 2023, and we understand there to be no liquid private market, the volatility of the Company's shares was estimated from: (1) the volatility of companies whose shares are publicly traded and who are operationally similar to the Company; and (2) the volatility of the Company's shares prior to suspension.

We examined a number of comparable companies with similar operations and key drivers of value, primarily related to air purification, water treatment and surface sterilisation. The comparable companies are listed on the following page. We determined the volatility for each of the comparable companies and examined the average and median value of the group as an estimate of the Company's volatility. The volatility for each of the comparable companies was calculated in accordance with AASB 2 paragraph B22, being the annualised standard deviation of the continuously compounded change in price of the companies' shares. The volatility was calculated using the daily, weekly, and monthly share prices for a period prior to the Valuation Date and of equal duration to the term of each tranche. We also examined the volatility over different calculation periods (i.e. 1-year, 2-year volatility etc.).

Next, we sought to examine the Company's volatility at the time prior to suspension from quotation in February 2023. In accordance with AASB 2 paragraph B22, the volatility was determined to be the annualised standard deviation of the continuously compounded change in price of the Company's shares. The volatility was calculated using the daily, weekly, and monthly share prices for a period prior to suspension and of equal duration to the term of each tranche. We also considered the volatility over different calculation periods (from 6-months to 48-months).

Based on the aforementioned method, volatility was determined to be 75.0% (rounded) and was considered to be reflective of the Company's expected volatility moving forward. A summary of our volatility calculations is set out on the following page.

Based on the foregoing methodology and inputs, and before any other considerations discussed in the next section, we determined the value of the Options to be:

Tranche 1	-	\$0.1288	per Option
Tranche 2	-	\$0.1171	per Option
Tranche 3	-	\$0.0847	per Option

The following tables lists the Comparable Companies used in the volatility calculation.

Annexure 3 – Other Considerations

Non-market based vesting conditions

Per paragraph 19 and 20 of AASB 2, any non-market based vesting conditions are taken into account in the valuation of the Options by adjusting the number of equity instruments included in the measurement. The Company must estimate the probability of achievement of any non-market-based vesting condition (expressed as a % probability) and apply that percentage to the total number of instruments comprising the Options, to determine the number of equity instruments expected to vest as at the Valuation Date.

Given the non-market-based vesting conditions and employment condition described in Annexure 1 of this report, the Company should estimate the probability of achievement of these conditions for each tranche and apply that percentage to the total number of Options comprising each tranche. For the purposes of this valuation, it was assumed that the likelihood of meeting the vesting and employment conditions was 100%.

Annexure 4

Summary of AASB 2 Share-based Payment

Table A4-1 below sets out the pertinent clauses of AASB 2 – Share-based Payment as they relate to the Options.

Table A4-1: AASB 2 – Share Based Payment

AASB

Paragraph Comment

2 (a) <i>Applicable paragraph</i>	<p>An entity shall apply this Standard in accounting for all share-based payment transactions, whether or not the entity can identify specifically some or all of the goods or services received, including:</p> <ul style="list-style-type: none"> (a) equity-settled share-based payment transactions; (b) cash-settled share-based payment transactions; and (c) transactions in which the entity receives or acquires goods or services and the terms of the arrangement provide either the entity or the supplier of those goods or services with a choice of whether the entity settles the transaction in cash (or other assets) or by issuing equity instruments, <p>except as noted in paragraphs 3A-6. In the absence of specifically identifiable goods or services, other circumstances may indicate that goods or services have been (or will be) received, in which case this Standard applies.</p>
<i>22 Corporate Advisory comment</i>	<p>The Options are equity-settled share-based payment transactions, in which the entity (PurifLOH Limited) receives goods or services (employment services of the grantee) as consideration for equity instruments of the entity (including shares or share options).</p>
10 & 11	<p>For equity-settled share-based payment transactions, the entity shall measure the goods or services received, and the corresponding increase in equity, directly, at the fair value of the goods or services received, unless the fair value cannot be estimated reliably. If the entity cannot estimate reliably the fair value of the goods or services received, the entity shall measure their value, and the corresponding increase in equity, indirectly, by reference to the fair value of the equity instruments granted.</p> <p>To apply the requirements of paragraph 10 to transactions with employees and others providing similar services, the entity shall measure the fair value of the services received by reference to the fair value of the equity instruments granted, because typically it is not possible to estimate reliably the fair value of the services received, as explained in paragraph 12. The fair value of those equity instruments shall be measured at grant date.</p> <p>We believe that the entity cannot reliably measure the goods or services received along with the corresponding increase in equity. Accordingly, per clause 10, we have defaulted to measuring the goods or services received and the corresponding increase in equity, indirectly, by reference to the fair value of the equity instruments granted.</p> <p>Given that the Options essentially allow the holder to receive a fully-paid ordinary share in the Company (whose value can be reliably estimated), subject to certain vesting criteria, we are of the view that the fair value of the equity instruments granted can be reliably estimated causing AASB 2 clauses 24 – 25 to be irrelevant.</p>
14, 15	<p>If the equity instruments granted vest immediately, the counterparty is not required to complete a specified period of service before becoming unconditionally entitled to those equity instruments. In the absence of evidence to the contrary, the entity shall presume that services rendered by the counterparty as consideration for the equity instruments have been received. In this case, on grant date the entity shall recognise the services received in full, with a corresponding increase in equity.</p>

Table A4-1: AASB 2 – Share Based Payment

AASB

Paragraph Comment

If the equity instruments granted do not vest until the counterparty completes a specified period of service, the entity shall presume that the services to be rendered by the counterparty as consideration for those equity instruments will be received in the future, during the vesting period. The entity shall account for those services as they are rendered by the counterparty during the vesting period, with a corresponding increase in equity. For example:

(a) If an employee is granted share options conditional upon completing three years' service, then the entity shall presume that the services to be rendered by the employee as consideration for the share options will be received in the future, over that three-year vesting period.

(b) If an employee is granted share options conditional upon the achievement of a performance condition and remaining in the entity's employ until that performance condition is satisfied, and the length of the vesting period varies depending on when that performance condition is satisfied, the entity shall presume that the services to be rendered by the employee as consideration for the share options will be received in the future, over the expected vesting period. The entity shall estimate the length of the expected vesting period at the grant date, based on the most likely outcome of the performance condition. If the performance condition is a *market condition*, the estimate of the length of the expected vesting period shall be consistent with the assumption used in estimating the fair value of the options granted, and shall not be subsequently revised. If the performance condition is *not a market condition*, the entity shall revise its estimate of the length of the vesting period, if necessary, if subsequent information indicates that the length of the vesting period differs from previous estimates.

We understand the Options to have a service condition (i.e. holder must remain employed by the Company until the Vesting Date). As such, we consider the Company should account for the services rendered by the holder of the Options over the expected vesting period of the Options, with a corresponding increase in equity. The Company should estimate the length of the expected vesting period as at the grant date, based on the most likely outcome of the performance condition.

- ▶ For instruments with only a service condition, or that vest at completion of the service condition, the vesting period should be equal to the period of required service.
- ▶ For instruments with market-based vesting criteria, the length of the expected vesting criteria should be consistent with the assumptions used in estimating their fair value and should not be subsequently revised.
- ▶ For instruments with non-market-based vesting criteria, the Company should revise its estimate, if necessary, if subsequent information indicates that the length of the vesting period differs from previous estimates.

We note that these accounting treatments should be confirmed with the Company's auditors.

16 For transactions measured by reference to the fair value of the equity instruments granted, an entity shall measure the fair value of equity instruments granted at the measurement date, based on market prices if available, taking into account the terms and conditions upon which those equity instruments were granted (subject to the requirements of paragraphs 19-22).

Table A4-1: AASB 2 – Share Based Payment

AASB

Paragraph Comment

As the shares in the Company are unlisted, a readily available market price was not available as at the Valuation Date. As a result, the share price was estimated based on a proposed capital raise and other share issuances, where approval is being sought by Shareholders at the same General Meeting as the subject Options. Namely, approval is being sought for shares to be issued as a result of: (i) a share placement; (ii) in lieu of fees to a former and current directors; (iii) in lieu of consultant fees; and (iv) satisfaction of an outstanding debt obligation. All of the preceding issuances are proposed/being conducted at a price of \$0.25/share, which we note is not dissimilar from the last market traded price of \$0.22 back in February 2023. As a result, we have adopted \$0.25/share as accurately reflecting the market price of the Company's shares as at the Valuation Date.

19

A grant of equity instruments might be conditional upon satisfying specified *vesting conditions*. For example, a grant of shares or share options to an employee is typically conditional on the employee remaining in the entity's employ for a specified period of time. There might be performance conditions that must be satisfied, such as the entity achieving a specified growth in profit or a specified increase in the entity's share price. Vesting conditions, other than market conditions, shall not be taken into account when estimating the fair value of the shares or share options at the measurement date. Instead, vesting conditions shall be taken into account by adjusting the number of equity instruments included in the measurement of the transaction amount so that, ultimately, the amount recognised for goods or services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest. Hence, on a cumulative basis, no amount is recognised for goods or services received if the equity instruments granted do not vest because of failure to satisfy a vesting condition, for example, the counterparty fails to complete a specified service period, or a performance condition is not satisfied, subject to the requirements of paragraph 21.

The granting of shares from exercise of the Options is conditional upon achievement of share price appreciation above the exercise price, which will be taken into account when determining the fair value of the Options.

Any non-market-based vesting conditions will be taken into account by estimating their probability of achievement and adjusting the number of equity instruments included in the measurement of the transaction.

Any market-based vesting conditions will be taken into account when determining the fair value of the Options.

20

To apply the requirements of paragraph 19, the entity shall recognise an amount for the goods or services received during the vesting period based on the best available estimate of the number of equity instruments expected to vest and shall revise that estimate, if necessary, if subsequent information indicates that the number of equity instruments expected to vest differs from previous estimates. On vesting date, the entity shall revise the estimate to equal the number of equity instruments that ultimately vested, subject to the requirements of paragraph 21.

The Company must estimate the probability of achievement of each non-market-based vesting condition (expressed as a % probability) and apply that percentage to the total number of instruments comprising the Options, to determine the number of equity instruments expected to vest as at the Valuation Date.

Table A4-1: AASB 2 – Share Based Payment

AASB

Paragraph Comment

21 Market conditions, such as a target share price upon which vesting (or exercisability) is conditioned, shall be taken into account when estimating the fair value of the equity instruments granted. Therefore, for grants of equity instruments with market conditions, the entity shall recognise the goods or services received from a counterparty who satisfies all other vesting conditions (e.g. services received from an employee who remains in service for the specified period of service), irrespective of whether that market condition is satisfied.

We have determined that exercisability of the Options is subject to market conditions (share price appreciation above the exercise price) and therefore these market conditions must be taken into account when estimating the fair value of the Options.

Based on information provided, there are no other market conditions upon which vesting is conditioned.

AG B4 For share options granted to employees, in many cases market prices are not available, because the options granted are subject to terms and conditions that do not apply to traded options. If traded options with similar terms and conditions do not exist, the fair value of the options granted shall be estimated by applying an option pricing model.

We have used the Black-Scholes Option Pricing (BSOP) methodology, which utilises the Black-Scholes-Merton model, to estimate the fair value of the Options. The valuation under the BSOP methodology is discussed in Annexure 2.

AG B5 The entity shall consider factors that knowledgeable, willing market participants would consider in selecting the option pricing model to apply. For example, many employee options have long lives, are usually exercisable during the period between vesting date and the end of the options' life, and are often exercised early. These factors should be considered when estimating the grant date fair value of the options. For many entities, this might preclude the use of the Black-Scholes-Merton formula, which does not allow for the possibility of exercise before the end of the option's life and may not adequately reflect the effects of expected early exercise. It also does not allow for the possibility that expected volatility and other model inputs might vary over the option's life. However, for share options with relatively short contractual lives, or that must be exercised within a short period of time after vesting date, the factors identified above may not apply. In these instances, the Black-Scholes-Merton formula may produce a value that is substantially the same as a more flexible option pricing model.

There is substantial empirical evidence (including a paper¹ by the author of the Black-Scholes-Merton model) showing that the value a European call option (one that can be exercised only on expiry) and an American call option (one that can be exercised prior to expiry) are the same. A difference in values between an American and European option arise only in certain circumstances, such as the presence of significant financial frictions, or prior to a significant dividend payment. Therefore, we consider the effect of early exercise on the value of the Options to be immaterial.

Further, we consider the Options to be sufficiently simple enough for the BSOP methodology to be an appropriate pricing model to use in their valuation.

(1) "Theory of Rational Option Price" (Robert Merton, published 1973) showed that an American call option (one that can be exercised before expiry) on a non-dividend paying stock should not be exercised prematurely.

Table A4-1: AASB 2 – Share Based Payment

AASB

Paragraph Comment

AG B6 All option pricing models take into account, as a minimum, the following factors:

- (a) the exercise price of the option;
- (b) the life of the option;
- (c) the current price of the underlying shares;
- (d) the expected volatility of the share price;
- (e) the dividends expected on the shares (if appropriate); and
- (f) the risk-free interest rate for the life of the option.

The above factors are taken into account in the valuation of the Options (See Annexure 2).

AG B7 Other factors that knowledgeable, willing market participants would consider in setting the price shall also be taken into account (except for vesting conditions and reload features that are excluded from the measurement of fair value in accordance with paragraphs 19-22).

Based on our instructions, there are no other factors a knowledgeable, willing market participant would consider in setting the price of the Options.

Expected volatility – Unlisted Entities

AG B27 – An unlisted entity will not have historical information to consider when estimating expected volatility. Some factors to consider instead are set out below.

In some cases, an unlisted entity that regularly issues options or shares to employees (or other parties) might have set up an internal market for its shares. The volatility of those share prices could be considered when estimating expected volatility.

Alternatively, the entity could consider the historical or implied volatility of similar listed entities, for which share price or option price information is available, to use when estimating expected volatility. This would be appropriate if the entity has based the value of its shares on the share prices of similar listed entities.

As the Company is currently suspended from trading on the ASX and we understand there to be no liquid private market, the volatility of the Company’s shares was estimated from the volatility of companies whose shares are publicly traded and who are operationally similar to the Company. We examined a number of comparable companies with similar operations and key drivers of value, which are listed in in Annexure 2. Further, we also examined the Company’s volatility prior to its suspension in February 2023.

AG B34 & B35 Conversely, if the employees are not entitled to dividends or dividend equivalents during the vesting period (or before exercise, in the case of an option), the grant date valuation of the rights to shares or options should take expected dividends into account. That is to say, when the fair value of an option grant is estimated, expected dividends should be included in the application of an option pricing model. When the fair value of a share grant is estimated, that valuation should be reduced by the present value of dividends expected to be paid during the vesting period.

Option pricing models generally call for expected dividend yield. However, the models may be modified to use an expected dividend amount rather than a yield. An entity may use either its expected yield or its expected payments. If the entity uses the latter, it should consider its historical pattern of increases in dividends. For example, if an entity’s policy

Table A4-1: AASB 2 – Share Based Payment

AASB

Paragraph Comment

has generally been to increase dividends by approximately 3 per cent per year, its estimated option value should not assume a fixed dividend amount throughout the option’s life unless there is evidence that supports that assumption.

The Company has not paid any dividends recently and is assumed to continue this trend for the term of the Options. As such, this clause is not applicable to the valuation of the Options.
